Esakki Durai.S

Aspiring Game Designer

DEPARTMENT
Computer Science and Design

ROLL NUMBER
251701011

“I want to create games with worlds and stories people want to explore.”

DESIGN · STORY · EXPERIENCE

About me

I’m a Computer Science and Design student who enjoys visual design, creative problem-solving and building engaging experiences. I like turning ideas into designs and exploring how art, technology and storytelling can work together in games and digital experiences.

Goals

- Become a game designer and work on meaningful games.
- Improve my design skills using Figma, Illustrator and After Effects.
- Develop original ideas, interesting stories and game concepts.
- Explore opportunities in the gaming or film industry.

Interests

Game design & development
UI/UX design and Figma
Adobe Illustrator and visual arts
After Effects and motion graphics
Cinema, movies and storytelling

Skills & tools

• Visual design and creative thinking
• UI/UX design (Figma)
• Illustration (Adobe Illustrator)
• Motion graphics (After Effects)
• Story ideas and visual communication

What motivates me

New ideas · thoughtful design · memorable stories · learning new tools · feedback

“Small steps, meaningful ideas, better experiences.”
